

Stream A

- Concurrent Session 9A: MSK & RHEUMATOLOGY 08:30 - 10:30
Emergencies in MSK by US
Tendon and muscle imaging in sports injuries
- Morning Tea 10:30 - 11:00
- Concurrent Session 10A: MSK & RHEUMATOLOGY 11:00 - 13:00
Ultrasound of nerves around the elbow and proximal forearm
Ultrasound of the distal biceps tendon and proximal radioulnar impingement
Assessing crystal disease such as gout with ultrasound
- Lunch 13:00 - 14:00
- Concurrent Session 11A: MSK & RHEUMATOLOGY 14:00 - 15:30
Groin pain in athletes *Dr Daniel Walkley*
Ultrasound of the anterolateral hip
A pain in the butt *Quanson Sirlyn*
- Afternoon Tea 15:30 - 16:00
- Concurrent Session 12A: MSK & RHEUMATOLOGY 16:00 - 17:30
Ultrasound of nerve tumours and tumour-like masses

Stream B

- Concurrent Session 9B: PoCUS- O&G 08:30 - 10:30
Normal and early pregnancy
Ectopic: typical and atypical
Ovarian masses: Which one's don't I have to follow up?
- Morning Tea 10:30 - 11:00
- Concurrent Session 10B: PoCUS- O&G
Haemorrhagic cysts and Torsion
USS in labour including fetal wellbeing assessment

Where is the placenta? What is the gestation?	11:00 - 13:00
Panel discussion	
Quiz O&G	
■ Lunch	13:00 - 14:00
■ Concurrent Session 11B: PoCUS - Lung	14:00 - 15:30
The general approach	
Simple pleural effusion	
Complex pleural effusions	
Masses	
Interesting cases	
■ Afternoon Tea	15:30 - 16:00
■ Concurrent Session 12B: PoCUS - Lung	16:00 - 17:30
B-Lines	
Consolidation and the approach in children	
Pneumothorax tips and tricks	
Watch the expert scan	
Quiz on lungs	

Stream C

■ Concurrent Session 9C: CARDIAC- Echocardiography: The Big Picture	08:30 - 10:30
■ Morning Tea	10:30 - 11:00
■ Concurrent Session 10C: CARDIAC LV Function	11:00 - 13:00
■ Lunch	13:00 - 14:00
■ Concurrent Session 11C: CARDIAC- Exercise and the Heart	14:00 - 15:30
■ Afternoon Tea	15:30 - 16:00
■ Concurrent Session 12C: CARDIAC- Adult Congenital	16:00 - 17:30

Stream D

■	Concurrent Session 9D: BREAST	08:30 - 10:30
■	Morning Tea	10:30 - 11:00
■	Concurrent Session 10D: BREAST	11:00 - 13:00
■	Lunch	13:00 - 14:00
■	Concurrent Session 11D: BREAST	14:00 - 15:30
■	Afternoon Tea	15:30 - 16:00
■	Concurrent Session 12D: BREAST	16:00 - 17:30

Stream E

■	Concurrent Session 9E: OBSTETRICS	08:30 - 10:30
■	Morning Tea	10:30 - 11:00
■	Concurrent Session 10E: OBSTETRICS	11:00 - 13:00
■	Lunch	13:00 - 14:00
■	Concurrent Session 11E: GYNAECOLOGY Role of Ultrasound in the investigation of pelvic pain and management of endometriosis Endometriosis: A surgical perspective Performing an ultrasound to assess for DIE How ultrasound governs my surgical practice for endometriosis Ultrasound-based endometriosis scoring: UBESS Myometrial pathology: The diagnosis and management	14:00 - 15:30
■	Afternoon Tea	15:30 - 16:00
■	Concurrent Session 12E: GYNAECOLOGY Ultrasound in the diagnosis and management of complications in early pregnancy Early pregnancy complications: Avoiding diagnostic errors Non-tubal ectopic pregnancies Diagnosis and management of Caesarean section scar pregnancy	

Non-tubal ectopic pregnancies: An Australian experience

16:00 - 17:30

Pelvic floor ultrasound: Essentials

Stream F

- Concurrent Session 9F: WORKSHOPS 08:30 - 10:30
- Morning Tea 10:30 - 11:00
- Concurrent Session 10F: WORKSHOPS-MSK 11:00 - 13:00
- Live Scanning Workshop – Greater trochanteric pain syndrome - tendinopathy and differentials *Dr Daniel Walkley*
- Live Scanning Workshop – Elbow
- Lunch 13:00 - 14:00
- Concurrent Session 11F: WORKSHOPS- Head & Neck 14:00 - 15:30
- Afternoon Tea 15:30 - 16:00
- Concurrent Session 12F: WORKSHOPS- Head & Neck 16:00 - 17:30

Stream G

- Concurrent Session 9G: EDUCATION Developing scholarly skills 08:30 - 10:30
- How to review a journal paper critically
- Sage tips for publishing
- Developing the skills and knowledge to structure and write an abstract (Group work)
- Morning Tea 10:30 - 11:00
- Concurrent Session 10G: EDUCATION Mastering the provision of verbal feedback 11:00 - 13:00
- The role and purpose of feedback in clinical practice- the current theory and practices
- Delivering feedback in clinical practice- the models which assist your clinical practice
- Workshop - Facilitating educators in their clinical practice role to deliver feedback
- Lunch 13:00 - 14:00
-

Concurrent Session 11G: EDUCATION	14:00 - 15:30
■ Afternoon Tea	15:30 - 16:00
■ Concurrent Session 12G: EDUCATION- Adopters of ultrasound imaging: The Future	16:00 - 17:30
Teaching cardiac ultrasound: One size does not fit all	
Introducing US into the emergency department- tips, tricks and perils	
The use of ultrasound imaging in rheumatology- our experiences to-date	
Teaching ultrasound in the undergraduate medical education curriculum- the lessons learned so far	

Stream H

■ Concurrent Session 9H: GENERAL - ABDOMEN	08:30 - 10:30
Patterns of wall thickening in acute and chronic gall bladder disease	
US of the biliary tree	
The role of ultrasound in portal hypertension beyond 2020	
Sonography of splenic tumor: The almost forgotten organ in abdominal US examination	
■ Morning Tea	10:30 - 11:00
■ Concurrent Session 10H: GENERAL - ABDOMEN New technologies	11:00 - 13:00
■ Lunch	13:00 - 14:00
■ Concurrent Session 11H: GENERAL - ABDOMINAL INTERVENTIONS	14:00 - 15:30
■ Afternoon Tea	15:30 - 16:00
■ Concurrent Session 12H: GENERAL - ABDOMEN	16:00 - 17:30

Stream I

■ Concurrent Session 9I: GENERAL - PAEDIATRICS Cranial Ultrasound	
---	--

Perfecting the technique	08:30 - 10:30
Meningitis and complications	
Correlation of US and MRI intracranial pathology	
Eye US technique and clinical correlation	
Interesting cases /case presentation/salivary glands	
■ Morning Tea	10:30 - 11:00
■ Concurrent Session 10I: GENERAL - PAEDIATRICS Renal	11:00 - 13:00
Basic renal tract US technique - common pathologies - UTI and bladder instability	
Renal cystic disease	
Comparing fetal medicine renal dilatation guidelines to the new OTC guidelines -	
What's new? What's different?	
Clinical - Fetal and neonatal US - what does the clinician need to know?	
CEUS - what is it? Theory and technique	
CEUS - in the paediatric renal tract - does it give all the answers?	
■ Lunch	13:00 - 14:00
■ Concurrent Session 11I: GENERAL - PAEDIATRICS Lumps, Bumps and Others	14:00 - 15:30
Clinician and sonographer - when to request US, what info does the clinician need from US?	
Vascular malformations - what the interventional radiologist needs to know	
Lymph nodes in children - what is normal or abnormal? When do we get worried?	
Paediatric thyroid - technique & common/uncommon pathologies	
■ Afternoon Tea	15:30 - 16:00
■ Concurrent Session 12I: GENERAL - PAEDIATRICS Abdomen	16:00 - 17:30
Appendicitis	
Pyloric stenosis - normal/abnormal/confounders	
Malrotation and complications	
Odd GI US in paediatrics/ CEUS in adolescents
